### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel R. Polonenko on 08/16/07. The application has been amended as follows: Claims 1- 2, 11, 12 and 13 have been cancelled from further consideration. The claim 3 is amended as follows:

3. A water collection device for collecting water from moisture vapour in atmospheric air comprising: a solar heating device; a storage tank for collecting said water; at least one convection tube, connected at one end to said solar heating device and at a second end to said storage tank; a solar reflector apparatus connected to said solar heating device; said solar reflector apparatus further comprises an adjustment mechanism for adjusting said solar heating device to follow the sun to maintain said vacuum; wherein said adjustment mechanism comprises a flexible hose and supports clamps and at least one condensation tube for intaking said atmospheric air into said device at one end and connected to said storage tank at a second end; wherein when said solar heating device and said at least one convection tube are to heated up, a vacuum is created within said device which assists in drawing said atmospheric air into said device via said at least one condensation tube; wherein after said atmospheric air is drawn in, said air is cooled in said at least one condensation tube such that said

water vapour within said air is condensed to water and collected in said storage tank; and wherein uncondensed air is then drawn up said convection tube by said vacuum and returned to said atmospheric air.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: Claim 3 is allowable because the prior art of record fails to disclose or suggest or teach the recited solar reflector apparatus connected to said solar heating device; said solar reflector apparatus further comprises an adjustment mechanism for adjusting said solar heating device to follow the sun to maintain said vacuum; wherein said adjustment mechanism comprises a flexible hose and supports clamps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad M. Ali whose telephone number is 571-272-4806. The examiner can normally be reached on maxiflex.
